EDUCATION

Vanderbilt University   Nashville, TN | Aug 2020 – May 2024

- **BS in Computer Science** | CS Major GPA: 3.93 | Overall GPA: 3.56
- **Coursework:** Program Design and **Data Structures (C++)**, Intermediate Software Design, Digital Systems, Discrete Structures

PROJECTS

Vandy Course Buddy (Hackathon) *link*   Javascript

This project is an interactive course path designer for CS majors at Vanderbilt.

Twitch Popularity Game *link*   Javascript, HTML, CSS, Python

This game asks "Who's more popular" between two random Twitch streamers. Used JS, HTML, and CSS on making the website and Python on a basic webscrapper to finds the most recent data.

Sudoku Solver   Python

A program that solves an inputted Sudoku puzzle using a recursive backtracking algorithm. Created a GUI that allows input and shows the steps taken in real-time.

Discord Poll Bot   Python

A Discord Bot that creates a poll for a server to vote on and saves the result. The bot can also tell random or customized jokes.

SKILLS

Languages: C++, Python
Web Development: Javascript, HTML, CSS
Technology: Git

OTHER

Dean's List (Spring 2021)

Signals Operator in Singapore Armed Forces (July 2018 – July 2020)
